

# MIRAI 2.0

Research & Innovation Week 2023

At Umeå University, Sweden 13-17 November

## Creating Resilient and Sustainable Societies

Parallell Scientific Sessions

Special Sessions for Building Scientific Networks  
and Accelerating Research Exchanges

- AI
- Ageing
- Innovation & Entrepreneurship
- Materials Science
- Sustainability

### Registration information

Get more details from the website. Sign up  
for the conference at [www.mirai2023.se](http://www.mirai2023.se)

Hosted by Umeå University

UMEÅ UNIVERSITY

This in-person event brings together researchers, students, and university management from all 20 Swedish and Japanese MIRAI2.0 member universities, as well as research funding agencies and policy makers. It serves as a unique opportunity to strengthen collaboration between Sweden and Japan in research, innovation and education.

Connect with researchers in your field and join scientific sessions on Ageing, Materials Science, Sustainability, AI, Innovation and Entrepreneurship.

## Join the MIRAI 2.0 Research and Innovation Week to:

- Expand your network
- Participate in joint activities/workshops
- Access funding opportunities
- Present your research
- Connect with the non-academic sector

Umeå University, founded in 1965, is one of Sweden's largest comprehensive universities with over 37,000 students and 4,000 faculty and staff. The University conducts research and education in medicine, science and technology, social sciences, arts and humanities, and the educational sciences. Umeå University is the place where the revolutionary gene-editing tool CRISPR-Cas9 was discovered that resulted in the Nobel Prize in Chemistry in 2020.
